Accessories for Operating Tables

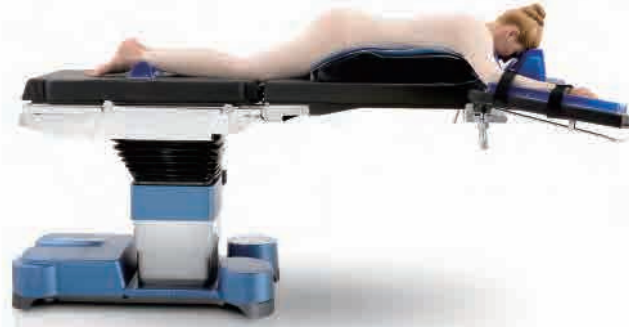

Accessories for operating tables from Mindray are characterised by these functionality, flexibility and high reliability. Developed in close collaboration with end users, the accessories fulfill all kinds of surgery positioning demands. They place the patients in an optimum way that offer benefits both for surgeons and patients.

We use high quality stainless steel materials in our operating tables and accessories. In order to get the surgeons access to C arm, all the pads or plates are radiolucent for X-ray check.

To avoid discomfort in sensitive areas of the patients, we provide gel material pads for patient positioning which are similar as human tissue.
